

The HSS Systems Human Service Software is showing a new face. The application suite is moving to the GUI (Graphical User Interface) with the deployment of the Clinical Applications module which allows the creation of client treatment plans and assessments as well as tracking case notes per session.

## The Browser Look

Internet and Intranet technology represents some of the most significant new approaches to application development to enter the mainstream in the last several years. This approach to application development and deployment combines the efficiency of high-speed transaction servers and thin client workstations with the power of Visual Basic Scripting, Java, and browser technology to provide a up-to-the-minute expandable and easy to maintain software.

The first of the HSS Systems Human Service Software Modules to move to the Browser based interface is the Advanced Clinical Treatment Planner. Drop down selection lists and check box selection of items provides an enhanced environment for rapid and accurate Treatment Plan building and revisions. Other modules will be converted as appropriate.

The screenshot shows two overlapping browser windows. The main window is titled "HSS Systems Clinical Applications Main Page - Microsoft Internet Explorer". It features a navigation menu on the left with options like "Treatment Planner", "Assessment", "Case Notes", "Reports", "Clinical Summary", "Home", and "Logoff". The main content area displays "Today's Appointments for Jim Keener" with a table of appointments, "Currently Assigned Clients" with a list of client names and IDs, and "Upcoming Treatment Plan Due Dates".

The second window is titled "Clinical Summary - Microsoft Internet Explorer". It shows a "Clinical Summary" for "Provider: KEENER, JIM" and "Client: KEENER, JAMES (#790000000015)". It includes a "Treatment Plans" table with columns for "Select", "Plan Type", "Date", "Plan Number", and "Revision Number". Below this are sections for "Assessments" and "Case Notes", both indicating "No assessments available" and "No case notes available" respectively.

Subject	Start Time	End Time
Joe Hatfield	9:30:00 AM	10:30:00 AM
Bob Haller	11:00:00 AM	11:30:00 AM
Bob Conway	3:00:00 PM	4:00:00 PM

Client #	Client Name
790000024112	Bob Haller
700000000507	Cindy Hatfield
700000000506	Joe Hatfield
700000000505	Tommy Hatfield
790000000015	James Keener
790000000016	Wiggles Poochie
